## **SET-UP STEP CRITERIA**

**Vehicle Requirements:** Must be 2001 or newer (If you have a 1999 or 2000 that is in excellent condition, please call for inspection). Vehicle may not have body damage or rust and must be carpeted and clean inside. Needs to be in great condition and run well. If you have any questions as to whether or not we will accept your vehicle into our fleet, please call our office to schedule an appointment to meet and we can inspect the vehicle before it is set-up.

**Approximate cost to set-up a taxi (car or mini-van) is \$2,800.00, which does not include cost of vehicle. This amount covers all set-up when starting with a vehicle not already set-up as a taxi. If you have a taxi you are switching over from another company, some of your equipment may be compatible (radio and/or meter) and you already completed some of our set-up steps when you first turned your vehicle into a taxi. This, in turn, reduces your set-up expenses.**

- Vehicle must be the correct color, if not it will need to be painted. (Please refer to the Vehicle Set-Up Steps Form – Step #1 for details)
- Vehicle will need to be striped (lettered) on the exterior so it will be uniform with the All-Star Cab Fleet. (Please refer to the Vehicle Set-Up Steps Form – Step #2 for details)

For operation within the fleet, the vehicle will need to have a Nextel i365 device (Please refer to the Vehicle Set-Up Steps Form – Step #4 and the Nextel Phone / Data Device Service and Equipment Information Forms for details, must be purchased through All-Star Cab's Office)
- Vehicles will need to have taxi license plates and the necessary taxi insurance, as required by the State of Illinois. (Please refer to the Vehicle Set-Up Steps Form – Steps #6 & 7 for details)
- Each vehicle will be required to have passed the Illinois Safety Lane Inspection. This is required 3 times per year by the state of Illinois at a cost of \$75.00 per inspection. (Please refer to the Illinois Safety Lane Inspection Facilities Form for listing of acceptable locations to have this inspection conducted)
- Each vehicle will be required to have a minimum of two village passenger stickers for the towns they will operate in as required by local Town / Village ordinances.  
These may be purchased, usually at the village hall or police station for each specific town, for an annual fee of typically \$50.00-\$100.00 per year. (Please refer to the Taxicab Licensing Protocol Form)

There are always interested drivers calling. With our Driver Placement Program you can rest assured when drivers call, All-Star Cab will field those calls if you prefer. Then you simply need to meet up with the new driver to collect 1<sup>st</sup> weeks lease (which is paid upfront) and give that individual the keys to the vehicle. All-Star Cab handles all the phone and leg work till they are ready to get into your vehicle, trained and ready to work. After you have set-up your first vehicle, please make sure to call to inquire about co-op classified advertising and to gain access to our Investors website (you will need to be given the web address to access this). It is always a good idea to call ahead and set an appointment. Please be aware that certain Cities / Towns / Villages will only license a vehicle with a taxicab passenger sticker when inspections are conducted at one of their specified inspection facilities. The top 2 facilities listed above are generally, universally, accepted throughout most Cities / Towns / Villages as a valid safety lane inspection facility.

- **Please be aware that Courtesy Automotive and Lunt Auto Repair in Schaumburg are *no longer* valid safety lane inspection facilities.**

**Reminder: Cost of Safety Lane Inspection is \$75.00 and is required three times per year. (Expires: End of April, August and December) If you are an Investor adding vehicles to lease out to a driver, you would handle the first inspection so your vehicle is ready to pick-up customers and your driver would handle the inspection process from there, at your expense.**

## TAXICAB LICENSING PROTOCOL & ORDINANCES

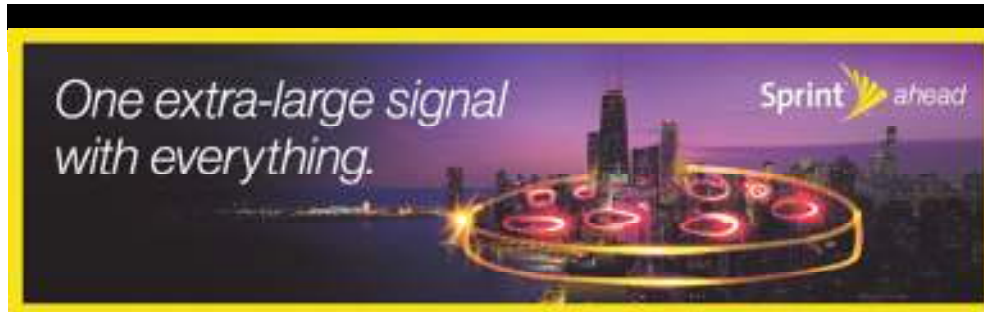

- **You will need to have a current Illinois Safety Lane inspection on your vehicle prior to getting it licensed. Be sure to bring copy of your taxi plate registration, taxi vehicle insurance and safety lane inspection checklist (Courtesy Auto in Schaumburg is no longer a valid Safety Lane Inspection Facility).**
- **Call the All-Star Representative you are working with to determine which two towns to license your vehicle in.**
- **Call the City, Town or Village for specific vehicle and / or Chauffer licensing requirements. Many Cities, Towns or Villages have their licensing requirements, costs and applications right on their website. Usually listed under: Taxicab licenses, permits, licensing, ordinances, etc.**
- **Operating your vehicle in towns that do not require licensing or in a town where all of All-Star Cab's vehicles are licensed does not satisfy your requirement of needing a minimum of 2 public passenger licenses on your vehicle.**
- **All City, Town or Village licensing protocol, procedures and fees (usually \$25-100 per Village per year) are the sole responsibility of the owner for vehicle licensing and the sole responsibility of the driver / operator for chauffer licensing (usually \$25-100 per Village per year).**
- **Some Chauffer licensing will require the driver to obtain a current medical Physical. This may be completed by your Doctor or by visiting Concentra Medical Center (approximately \$50), located at: 1830 Jarvis Avenue, Elk Grove Village (847) 364-9906.**

This equipment must be purchased through All-Star Cab so that it has correct software installed. No Exceptions, device will not work otherwise. There is a one-time software, license, and activation fee of \$175.00 and cost of Nextel service on your device is \$41.00 per month. The \$41.00 is paid when you purchase your device to activate it for the month you are starting service and is due the first Thursday of the month thereafter. (For Investors: The monthly service charge is broken down to a weekly rate of \$11.00 and is already added to your driver's weekly lease) If phone is lost or stolen there is a \$50.00 replacement fee (this is only because you are afforded insurance protection on your device through our group plan) and a \$75.00 software and license fee, rather than full price on the phone and a \$175.00 fee. If you acquire a used phone (Ex: you purchase a vehicle from an Owner Operator or Investor), there is a \$75.00 transfer of software/insurance license fee due to All-Star Cab (which goes directly to Nextel) at the time of re-activation.
